

I read that you are considering overturning the Do No Call Act in New Jersey. Please note that there should be no exception to persons electing to be on the Do Not Call list. Personally, I would like to be able to conduct business with reputable companies and provide my telephone number knowing it will not be marketed to millions of other businesses/telemarketers hoping I'll spend my money with them. It is annoying and a waste of time to receive phone calls you do not wish to receive, regardless of whom you have done business with over the past 18 months.

Thanks for listening.

Danielle
